PERSONAL STATEMENT

I am a member of the UofL Women's Soccer team. I have a passion for soccer and have ever since I touched a ball for the first time. I love working with children and I'm very energetic and patient, which makes working with children very easy. I believe at this young of age, the most important thing is to make sure the children have fun. I want the children to learn to love soccer and have fun, while still learning about the game and engaging in some friendly competition.
